LOCATION

Istanbul · Remote & hybrid

I build websites, mobile apps and admin panels, owning the interface, the backend and the store release end to end. **8 of my apps are live on the App Store and Google Play.** I've shipped a car marketplace family localized for seven countries, a booking platform, a CRM and corporate websites; my industrial background helps me design software around real business processes.

EXPERIENCE

- **Mobile Development & Procurement · İstanbul** Mar 2026 – present
Sensörler
 - Built an internal dashboard mobile app that turns Excel-based data into readable components, reducing reliance on manual spreadsheets.
 - Quotation, order-stock and supplier management for industrial sensors and measurement components.
- **Freelance Full-Stack & Mobile Developer · Own clients** 2024 – present
 - **Car marketplace family:** web + mobile + admin panel built on one shared architecture and localized for 7 countries (daCAR, Marocar, AvtoUzbek, NaijaCar, BharatKaar, AvtoBozor, BanglaGari). Built with React Native, Expo and Supabase.
 - **Heybe:** gamified app for learning the Quran and Islam; built with Flutter and Firebase, live on the App Store and Google Play.
 - **Satılık:** classifieds platform for Türkiye; web, mobile app and admin panel on a single Supabase project.
- **Full-Stack Developer · Kortbul (freelance)** Sep 2025 – Mar 2026
 - Court booking platform for racket sports: venue and player dashboards, availability calendar, real-time notifications.
 - Expo + Firebase mobile app: partner finder, match invites, chat and tournaments; live in both stores.
- **iOS & Web Developer · Bionluk (freelance)** Jan 2024 – Mar 2026
 - Native iOS apps published on the App Store with Swift and SwiftUI: CarLog, Adhan.
 - React and TypeScript interfaces; authentication and real-time data with Firebase.
- **Co-Founder · Cebinde** Sep 2023 – Mar 2026
 - Led the mobile UI team of a personal finance app; user experience and interface design.
- **Sales · Han Endüstri Otomasyon** Dec 2023 – Jan 2026
 - B2B sales of industrial products; technical solution proposals tailored to customer needs.
- **Intern → Web, Mobile & Multimedia · Hamle Mühendislik** 2017 – 2024
 - Corporate web for the healthcare sector (performance, SEO), UI standards and video production.
 - As an intern: industrial device programming, embedded applications and technical documentation.
